Books

New to programming?

[Think Raku](#)

Comming from another programming language?

If you are comming from another programming language, [these documentations](#) may be of help to you: Python, JavaScript, Ruby, Haskell, Perl

If you want to use other programming languages and their libraries inside Raku, you can use `Inline::*` modules, such as: `Inline::Python`, `Inline::Perl`, `Inline::Go`, `Inline::Ruby`, `Inline::Lua`
